Insurance Institute Of Zimbabwe

Enhancing Excellence In Insurance Practice

COP (Certificate of Proficiency)

An introductory level qualification which is recognized by Insurance Authorities for licensing of insurance professionals. The certificate equips students with foundation knowledge in insurance. It is ideal for administrative or operational staff as well as support staff in functions such as Human Resources, Information Technology, Marketing, and Finance.

Prospective students should have a minimum of five ordinary level subjects. It can be completed in at least four months of study. One can study either Short Term or Long Term Insurance or Trusteeship

The examination is based on the prescribed module which is obtainable from the Institute at a fee.

Diploma in Insurance

It's the next level qualification which is intended for all levels of staff across all sectors of insurance. It equips students with high technical knowledge and skills. It is also for those who have an eye on management positions.

The course can be completed in one year and is open to holders of the COP. The five examinations are based on the Institute modules.

Students have an option to specialize in either Short or Long Term.

The subject combinations are:

Foundation level (all three are compulsory)

1. Insurance Principles and Practice 1
2. Insurance Principles and Practice 2 (Take life or Non Life depending on area of specialisation)
3. Legal Aspects of Insurance

Branch level (choose one in preferred area of specialization)

1. Long Term Business (Long term)
2. Commercial General Insurance (Short Term)

Technical level (take one in area of specialization)

Long Term or Life Route

- Life Assurance
- Pension Law and Taxation

Short-term or Non—Life Route

- Principles of Property and Pecuniary Insurance
- Motor Insurance

Associateship In Insurance

Is an advanced qualification that demonstrates advanced technical knowledge across many areas. It is for operational and managerial staff in insurance, broking, reinsurance, funeral, and pension fund administration companies. It is also for those aspiring to work at strategic level.

It can be completed in one year. The six examinations are set from the Institute modules. Students specialise in either Short or Long Term.

The three compulsory subjects are:

- Risk and Insurance
- Reinsurance Practice
- Insurance Broking

Students choose the remaining three from five electives in their area of specialization

Non- Life Electives

- Risk Management
- Marine and Aviation
- Liability Insurance
- Engineering and Construction
- Business Interruption

Life Electives

- Life Insurance Practice
- Life Insurance Claims
